Cold feet about joining the Surface Design Immersion class of 2023?

That's okay, my pattern-loving friend. 💕

Before they embark on this new adventure, many of my students wonder . . .

- 👉 "Don't I need to know how to draw?" (Not at all! Doodles are in high demand.)
- 👉 "Do I have enough time?" (You'll be busy! But even time-strapped moms say my modules fit their schedule.)
- 👉 "Am I ready to invest in myself?" (My payment plans and 14-day money-back guarantee make that decision SO much easier.)

So . . . what happens when they DO sign up and follow their surface design dreams?

They achieve their biggest goals! 🎉

Goals like . . .

- 🌱 Building a brand that embodies their essence . . .

After Immersion, I put a website and portfolio together, started pitching to clients, and signed three licensing contracts within the year! -Genna Blackburn

- 👨👩👧👦 Supporting their families . . .

"This past year has been my first to break through the six-figure mark. Thanks to Bonnie, it feels like it's just the beginning!" - Elena Wilken

- 💕 Achieving a renewed confidence . . .

"After the first week, I knew this course was different. Bonnie made me feel like there was room for me in this community and that what I was offering mattered." - Kristen Steen

"There is NO surface design class out there as comprehensive as the Immersion course!" - Sarah Garcia

"This course helped open my eyes to a new creative craft world and gave me the spark I needed to SHINE BRIGHTER!" -Audianna Holsey

"When I first signed up for Immersion I could never have predicted how my path would unfold, but it was the catalyst I needed to change my life." - Sophia van Hees

"It truly has been one of the best investments I have made for my creative side hustle as well as my personal learning and development." - Erin Silliman

. . . and SO much more!

Join Surface Design Immersion today.

This could be the start of something BIG.

❤️Bonnie
