HI! I'M JENNA KUTCHER

Host of the chart-topping Goal Digger Podcast

I'm an online marketing *expert*, a nerd when it comes to the *numbers*, and my *obsession* is teaching others how to make a living doing what they love (*without* it taking over their life.)

I went from replying, "I could NEVER!" when my brother gave me a mic for Christmas & suggested I start my own show, to a **top-ranked business podcaster** with over 100 million downloads!!

My happiest days are a blend of spending time with my family and stepping up to the mic to share what I'm learning along the way.

It all started in my garage, sitting in my parked car with nothing more than a shaky voice.

I'm all about making those big, complex ideas become powerful, actionable plans that YOU know how to implement without breaking a sweat.

Is your next chapter of growth your very own podcast?

Did you know?

41% of people in the US listen to podcasts every single month, and stats show there are **474 million podcast listeners globally**.

Whether you have an established business or brand or you're simply sitting in the dreaming stages, the podcasting community is a **powerful place to build an audience, income, and brand awareness** no matter what stage you're in.

In just the last few years, **podcasts have grown** from 500k to over 2 million listeners, and with 50% of adults sharing that they listen to podcasts regularly, **the podcasting world isn't slowing down any time soon!**

Nothing beats the **accessibility, diversity, and open education** that podcasts deliver.

Podcasting allows independent, creative individuals (like you!) to make an **impact without a large budget** (or even a small budget!)

Opportunities and connections can come your way by being in the podcasting community when your dream guests come on your show!

You can make money **WHILE** saving so much time as you **let a podcast run on autopilot**. Your new episodes can drop and serve for you!

"Significant impact..."

The podcast has allowed me to learn from incredible guests who have enriched my life in ways I couldn't have imagined. It's given me the opportunity to connect with people I wouldn't have met otherwise, leading to collaborations, speaking engagements, and business growth. What I love most is the significant impact the podcast has had on so many lives.

- CLARITA ESCALANTE

"Opened up several streams of income for my family..."

Vanity metrics are great and all — but even better? The podcast has opened up several streams of income for my family from affiliates, to ad revenue, to course sales, consulting and more. Plus I feel like I've rediscovered the little girl in me who loved to perform and make people smile. Thank you doesn't begin to cut it, Jenna. I'm forever changed and grateful.

Word to the wise: The internet is *always* changing — and one of my passions is staying on top of those waves of change, like a pro-marketing-surfer.

That means that what is here, ready, and **FREE** for you today may not be tomorrow, *ya feel me?*
