Here's how even a dog can go viral on TikTok and Instagram in 2024... 📌

Whether your video pops or flops depends on one metric.

Watch time.

That means finding ways to grab people's attention..

Keep them engaged throughout your video..

and make sure it reaches the right people in the first place.

That's exactly what we taught Gracia to help her to break a million views with 1 video on her own channel...

and even get over 14 million views on a single video for her dog's account! 🤪

Proving you don't need to be famous...

Have years of experience...

Or even resist a good butt sniff..

To get millions of views on TikTok and Instagram.

In the last six months over 6000 people have taken our course and gotten...

more sales for their business...

(Like Dr Shica selling \$4k in cookies from one video)

enough brand deals to pursue their passions full time...

(Like Jordan who now gets paid to golf)

and even get recognized in public.

(Like Gerry who got 100,000 followers in under a month)

It takes less than a weekend and costs less than a tank of gas.

If you want to unlock the key to getting more views on TikTok and Instagram, click learn more to find out how.
