Meter. You'll also learn about the Calm Freeze, Isolation,
and Dogs Living Together.
- ✓ But that's not all. The course also includes real-life case
studies of dog aggression, such as the story of Cruz.
You'll learn how to handle aggression towards people,
animals, and objects. And if you're worried about your
dog's safety, Doggy Dan will teach you how to properly
use a muzzle.

The **'SOLVE REACTIVITY & AGGRESSION'**
Program is your best solution for
QUICKLY turning chaos to calm, and
getting the safe, peaceful relationship
you deserve with your dog!

What's Included:

- ✓ **Stop, Start & Change Direction:** Key dog-calming related content pulled from the popular Everyday Tools & Techniques course. This module encourages a calm, cool and collected dog in public settings and gives you methods to reset your dog's mindset in high stress environments.
- ✓ **The Long Line:** The long line is a 'safety net' for both you and your dog during the training phase. It allows you to let your dog off leash without the risk of them running away! Here I share a number of tricks to maximize the effectiveness of it.
- ✓ **The Short Line:** A short line allows you to catch your dog in any situation and stay in control. This means you don't have to raise your voice when your dog is starting to get excited and allows both you and your pup to remain calm.
- ✓ **Energy Meter:** A dog learns best when they are relaxed and motivated. Discover how to keep your dog out of the red zone and in the learning zone making it easy for you and fun for them.
- ✓ **The Calm Freeze:** One of the most powerful ways to calm your dog down. This simple yet potent technique quickly and relaxes your dog with the added benefit that it can be used both inside AND outside the home.
- ✓ **Step By Step:** Great coaches in any area of life set their pups up to win, in this video we apply this approach specifically to dog training.
- ✓ **Isolation:** When our pups misbehave you never want to raise your hand and want to avoid shouting at them. Using timeout is the most gentle and powerful way of getting them to rethink their actions.
- ✓ **Dogs Living Together:** Dogs fighting in the home can be devastating for everyone. You solve it by treating the cause of the problem, an incorrect hierarchy using simple dog psychology... Treats will never work.
- ✓ **Dog Aggression On The walk:** Dogs will often lunge towards other dogs on the leash... Discover how using the right messages you can see how to get them to stop this, and remain relaxed allowing you to do a meet and greet if you wish.
- ✓ **Dog Aggression Case Study – Cruz:** A 4-part case study looking at a beautiful American Bulldog named Cruz. Behind aggression there is always fear... watch the transformation as communicate there's nothing to worry about.
- ✓ **People Aggression:** One of the most serious issues but one of the easier ones to change. The secret is you must THINK LIKE A DOG... not a human to understand where they are coming from.
- ✓ **Using A Muzzle:** Muzzles can be a life saver and a very important safety net during the important 'training phase' although not always completely necessary. Here I share when, where and how to use one.
- ✓ **Aggression Towards Animals:** Dogs can chase everything from cats to horses...! Watch as I put a stop to an obsessed dog trying to catch the indoor cat and a 3 legged dog named Horton chasing a horse!
- ✓ **Aggression Towards Objects:** Dogs can become obsessed with all sorts of objects. Discover the steps

to breaking the spell and giving your dog their sanity back. In these videos the obsession is with TV's and the Vacuum cleaner.

- ☒
- Shouting At Your Dog:** Shouting at your dog is NOT a great way to connect with your dog...It's counterproductive and a terrible long term solution. Here I share with you what to do instead...
