Any sales figures referenced are my personal sales figures, or those of our most exceptional clients. Please understand my results are not typical, I'm not implying you'll duplicate them (or do anything for that matter). I have the benefit of practicing online marketing for 10+ years, and have an established following as a result. The average person who buys any online marketing information gets little to no results. I'm using these references for example purposes only. Your results will vary and depend on many factors... including but not limited to your background, experience, and work ethic. All business entails risk as well as massive and consistent effort and action. If you're not willing to accept that, please DO NOT attempt to work with us.
