

Hey there! First things first, WHY do you want to create a course?

- I want to impact more lives with my message and create a lasting legacy.
- I want to create a sustainable source of scalable income independent from how much effort I'm willing to put in (code for: more time & financial freedom please!)
- I want to ditch my day job or side-hustle and run a profitable business online that gives me more freedom to do what I love.
